

CAPABILITY STATEMENT

Company Overview

Wugland Consulting Group, LLC was created to help your organization get a grip on existing and emerging technologies - whether it's strategizing an architectural roadmap, identifying IT capability gaps, designing and delivering IT solutions, or adapting business processes to take advantage of new IT capabilities. We have the knowledge and experience to help you succeed.

Core Products & Services

- Enterprise architectural guidance
- Patented solution review & selection process
- Business analysis & change management
- Master data management
- Solution and application design and development
- Testing and deployment support

Key Personnel

Douglas Hansknecht, Owner and President has over 19 years of experience in the business. A certified architect and president of the Ohio chapter of the Association of Enterprise Architects, Mr. Hansknecht brings a strong history of architecting, designing and implementing innovative solutions. Mr. Hansknecht has orchestrated many successful systems that show clearly measured improvements in productivity and reduced costs to the employer.

Past Performance

- **Ohio Attorney General's Office** - Provided assistance in platform migration and process analysis
- **Abercrombie & Fitch** - Provided enterprise architectural roadmap and policy development
- **State Farm** - Lead architect for a team of 80 redesigning the website help system
- **The State of New Jersey** - Led the design, development and deployment of a multi-site, state-wide content solution, overseeing procurement, contracts and subcontractors and providing master data management efforts
- **Southwest Airlines** - Designed a patent-pending solution for baggage management on mobile devices
- **Sears Holdings** - Worked with a team to redesign Sears' software development process
- **Social Security Administration** - Developed and supported a content migration solution capable of moving a million documents a day. Led the effort to design and implement a new imaging solution supporting 65,000 users in a thin client environment
- **Goldman Sachs** - Developed a global content distribution solution and created a patented vendor selection methodology
